

BACK TO THE HOUSE THE MEASURE GOES

TARIFF MEASURE PASSED BY THE SENATE.

**Decisive Vote on the Bill Yesterday—
Thirty-Eight Senators Favor the
Measure as Amended—President
McKinley Wants Currency Commis-
sion—To Protect Americans in Cuba**

Washington, July 8.—By the decisive vote of 38 to 28 the tariff bill was passed in the senate shortly before 5 o'clock Wednesday. The main interest centered in the final vote, and aside from this there was little of a dramatic character in the debate. The early part of the day was spent on amendments of comparatively minor importance, the debate branching into financial and anti-trust channels. By 4 o'clock the senators began manifesting their impatience by calls for "vote," "vote," and soon thereafter the last amendment was disposed of and the final vote began. There were many interruptions as pairs were arranged, and then at 4:55 o'clock the vice-president arose and announced the passage of the bill—yeas, 38; nays, 28. There was no demonstration, but a few scattered handclaps were given as the crowds dispersed.

Following is the vote cast:
Yeas—Allison, Baker, Burrows, Carter, Clark, Cullom, Davis, Deboe, Elkins, Fairbanks, Foraker, Gallinger, Hale, Hanna, Hawley, Jones (Nev.), Lodge, McBridge, McNary, McMillan, Manton, Mason, Morrill, Nelson, Penrose, Perkins, Platt (Conn.), Platt (N. Y.), Pritchard, Proctor, Quay, Sewell, Shoup, Spooner, Warren, Wellington, Wetmore, Wilson—38.

Nays—Bacon, Bate, Berry, Caffery, Cannon, Chilton, Clay, Cockrell, Faulkner, Gray, Harris (Kas.), Jones (Ark.), Kenny, Lindsay, Mallory, Martin, Mills, Mitchell, Morgan, Pasco, Pettus, Rawlins, Roach, Turner, Turpie, Vest, Walthall, White—28.

The following pairs were announced, the first named would have voted for the bill and the last named against it: Aldrich and Murphy, Chandler and McLaurin, Frye and Gorman, Gear and Smith, Hansbrough and Daniel, Hoar and Harris (Tenn.), Thurston and Tillman, Wolcott and George.

An analysis of the final vote shows that the affirmative was cast by 35 Republicans, 2 silver Republicans, Jones (Nev.), and Mantle, and 1 Democrat, McNary. The negative vote was cast by 25 Democrats, 2 Populists, Harris (Kas.), and Turner, and 1 silver Republican, Cannon. Eight Republicans were paired for the bill and eight Democrats against it. The senators present and not voting were: Populists, 5, viz.: Allen, Butler, Heitfeld, Kyle and Stewart; silver Republicans, 2, viz.: Teller and Pettigrew.

Following the passage of the bill a resolution was agreed to asking the house for a conference, and Senators Allison, Aldrich, Platt (Conn.), Burrows, Jones (Nev.), Vest, Jones (Ark.) and White were named as conferees on the part of the senate.

The tariff debate began May 25, on which day Mr. Aldrich, in behalf of the finance committee, made the opening statement. The actual consideration of the bill began the next day, and debate has been continuous since then, covering six weeks and one day. From the outset the advocates of the bill refrained from set speeches, and the discussion was narrowed to a consideration of rates and schedules, rather than general principles. The bill as it goes back to the house re-enacts the anti-trust section of the Wilson law, while the reciprocity and retaliatory provisions are substituted for those of the house.

One of the most important new provisions added by the senate is that placing a stamp tax on bonds, debentures and certificates of stock. Aside from these more important changes the bill as it goes back to the house has 874 amendments, of various degrees of importance, which must be reconciled between the two branches of congress.

FOR A CURRENCY COMMISSION.

President McKinley to Ask Congress for Authority to Act.

Washington, July 8.—After a discussion lasting over an hour the cabinet Wednesday decided that the president should send to congress a message recommending legislation providing for a commission to adjust the currency questions of the country. It is the expectation of the president that the subject will receive the attention of congress during the present extra session.

The president will ask authority to name nine commissioners and for an appropriation for the expenses of the commission, but will make no suggestion as to the political or other composition of the commission, nor will he make any suggestion as to the lines of investigation. He will simply call attention to the necessity of a reform in our currency and national banking laws, and state that, in his opinion, this reform is equally important with the enactment of a protective tariff law.

Might Even Go to War.

Washington, July 8.—The senate committee on foreign relations Wednesday, through Senator Lodge, reported a resolution authorizing the president to "take such measures as he may deem necessary to obtain indemnity from the Spanish government for the wrongs and injuries suffered by August Boltan and Gustave Richelieu, two naturalized American citizens, by reason of their wrongful arrest by Spanish authorities at Santiago de Cuba in the year 1895." The resolution is considered by members of the committee an important step, and is construed as another intimation from the committee that force should, if necessary, be used in protecting Americans in Cuba.

ENDEAVOR WORK BEGINS.

First Session of the Great San Francisco Convention.

San Francisco, Cal., July 8.—All day Wednesday trains laden with Christian Endeavorers poured into the city. Although their headquarters were opened at 5 o'clock in the morning, there were delegates at the doors awaiting the welcome already assured. Among the first to arrive were the Ohio delegates, who came shouting the yell of the Buckeye state. The second and third sections of the Iowa special brought 550 delegates. The first section of the Michigan delegation arrived, and 280 people registered at headquarters. From Kentucky and Indiana 300 people came. A train with 250 Endeavorers arrived from Oregon. The first and second Wisconsin specials came in, and the special from New York and New Jersey. One of the next delegations to arrive was from Vermont. On the same train were the representatives from Missouri, the strongest representation being from St. Louis.

The Vermonters numbered sixty-three, and were accommodated in two Pullman cars. A few of the representatives from South Dakota arrived on the train that brought the Iowans. Over 500 people from Kansas have arrived. The most noted arrival of the day was "Father" Clark, founder and president of the society. He came on the Massachusetts special and was greeted with a genuine ovation.

There were eleven simultaneous meetings at night in this city and Oakland, constituting the first series of services connected with the convention. The subject at all the meetings was "The Life Filled With the Spirit."

The convention proper opened this morning. Owing to the absence of Gov. Budd, the delegates were welcomed by Lieut.-Gov. Jeter.

DEFENDED HIS FATHER.

In Protecting the Latter Dr. Richard Cornwall Kills His Brother

St. Louis, Mo., July 8.—Herbert Cornwall was shot and killed by his brother, Dr. Richard Cornwall, between 8 and 9 o'clock Wednesday morning at the Tonic Beer depot of their father, Dr. John C. Cornwall, No. 1109 North Broadway.

It appears that Herbert Cornwall was a very dissolute young man, and his father chided him for persisting in his bad habits. This enraged Herbert, and he assaulted his father, who is old and feeble. Dr. Richard Cornwall interfered in behalf of his father, and a fight ensued between him and Herbert, in which the latter was shot five times and had his head and face badly mashed by being beaten with a heavy stone jug. He died in a very few moments. Dr. Cornwall surrendered to the police.

Fever Among Spanish Army.

Key West, Fla., July 8.—Official reports state that 23,000 Spanish soldiers have been attacked by yellow fever and other sickness, and probably half the men operating will be attacked soon. This is the opinion of most military doctors, as their health is very poor.

In Pinar del Rio province the Spanish forces attacked and surrounded a Cuban smallpox hospital and burned the building with fifty-six patients. Insurgents in Matanzas and Havana provinces are concentrating near Laeyuties, and it is said that General Gomez will soon be with them.

Young People in Detroit.

Detroit, Mich., July 8.—Young people representing nearly all the states of the union, to the number of over 1,000 were present Wednesday evening at the opening session of the eighth annual convention of the Young People's Christian union of the Universalist church. After the routine work of organization and an address by the president, Elmer J. Felt of Tacoma, Wash., the convention adjourned until today.

Lawyers Meet in Cedar Rapids.

Cedar Rapids, Iowa, July 8.—The third annual meeting of the Iowa State Bar association convened here Wednesday for a two days' session. There are nearly 200 in attendance. Reports of officers showed a healthy state of affairs. In the afternoon Judge Henderson of Indianola, president of the association, made the annual address.

Illinois Town Damaged by Fire.

Chicago, July 8.—The village of Grossdale was visited by fire yesterday. Grossdale is situated on the Chicago, Burlington & Quincy railroad, 12 miles from Chicago. The village hall, which was destroyed, was erected seven years ago at a cost of \$5,000. The buildings destroyed are on the principal street. The total loss will be about \$15,000, with insurance of \$5,000.

Bandit Captured Near Ottumwa.

Ottumwa, Iowa, July 8.—James H. Black, one of the Doolin gang, was captured at the home of his grandfather, near here, Wednesday. He will be taken back to Guthrie, O. T., where the gang broke jail.

SEVEN ARE DROWNED IN SAGINAW RIVER

STREET CAR FALLS THROUGH AN OPEN DRAW.

Accident Near Saginaw, Mich.—Motorman Unable To Stop His Train When the Bridge Is Swung—Rumor That the Loss of Life Is Greater Than Reported.

Saginaw, Mich., July 8.—An Interurban electric car coming from Bay City to this place Wednesday morning ran through an open draw over the Saginaw river, causing the loss of seven lives and the injury of a number of others. The draw had been opened for a tug and just closed when a sailboat signaled for an opening and it was swung again. The car was coming on the bridge at a high rate of speed and the motorman could not get it under control. The car shot off the bridge and seemed to soar like a bird for a moment, when it settled in the river, where there is about sixteen feet of water.

There were about a dozen passengers in the car, and of these seven are known to be dead. They are:

T. P. KRUMP, traveling man of Geneva, O.; mangled, rescued alive and taken to a hospital, where he died.

MRS. WILLIAM MCLELLAND, Bay City; drowned, leaves husband and one child 9 months old.

MRS. DAVID CAMPBELL of Metamora; drowned with three children.

HATTIE, LUNA AND EVA CAMPBELL, children of Mrs. Campbell; drowned.

J. W. HAWKINS of South Bay City; drowned.

E. E. Gerkens, assistant general freight agent of the Michigan Central, was on the car and managed to jump just as it went into the river.

Joseph Mayhew and Will McGraw, passengers, and the motorman and conductor went down with the car, but they managed to get out and reach safety, though they were more or less injured by being cut and bruised.

There are some who refuse to believe that this is the complete list of those on the car, for they say that the car was nearly full when it left Bay City. An eye witness says all the passengers got out of the car before losing consciousness except the children, but were so badly injured that they could not stay above water.

James O'Brien, the conductor, and the motorman, Herbert Riley, are under surveillance, and the Bay county authorities will make a vigorous investigation.

Alton Docks Burned at Chicago.

Chicago, July 8.—Property worth \$250,000 was destroyed by a fire that broke out at 2 o'clock this morning in the dock warehouse of the Chicago and Alton Railroad company. The warehouse, extending from Van Buren to Harrison street on the west bank of the river, with its contents and about forty loaded freight cars that lay on side tracks alongside the warehouse, were reduced to ashes in less than thirty minutes. It is impossible to give the exact damage, but the Chicago and Alton employees and steamboat men say it will not fall much short of \$250,000.

Talk of War With Costa Rica.

Managua, Nicaragua, via Galveston, Texas, July 8.—There is considerable feeling here against Costa Rica owing to that republic's decreeing free imports into her territory bordering on the San Juan and Colorado rivers, including Greytown, and war between the two countries is discussed. The government of Nicaragua will request the Diet of the Greater Republic of Central America to protest against the step taken by Costa Rica.

Thorn Owns Up the Crime.

New York, July 8.—Positive identification of the man arrested as Martin Thorn, the alleged confederate in the murder and dismemberment of William Guldensuppe has been made. Acting Inspector O'Brien said that he had in his possession a full confession from Thorn admitting that he had murdered Guldensuppe and giving all the details of the crime.

LISTEN TO ADVICE FROM OLDER HEADS

PAPERS READ TO TEACHERS AT MILWAUKEE.

National Educational Society's Session Is Now Well Under Way at the Cream City—President McKinley's Letter Is Read by President Skinner—The Work.

Milwaukee, July 8.—The National Education association got fairly into the work of its annual session Wednesday.

After the proceedings had been opened with prayer by the Rev. George H. Ide, the committees were announced and then followed the first address of the session, which was delivered by James M. Green, principal of the New Jersey state normal school. The subject of Prof. Green's paper was "Data of Method."

One of the most interesting department meetings held was that of the kindergarten section. The program included an address by Dr. John Dewey of the University of Chicago on "The Kindergarten and Child Study."

Miss Bertha Payne of Hull house, Chicago, read a paper in which she endeavored to answer the question, "Has the Child Study Movement Any Help for the Kindergarten?"

An address on a theme kindred to that of Miss Payne was delivered by Dr. Jenny B. Merrill, kindergarten supervisor of New York city public schools. Her subject was "Methods of Child Study in the Kindergarten."

The committee on resolutions was appointed as follows: Nicholas Murray Butler, New York; Dr. James H. Canfield, Ohio; Charles H. Keyes, California; James R. Preston, Mississippi; and Daniel K. Goss, Indiana.

Dr. A. F. Nightingale of Chicago presented the report of the committee on college entrance requirements.

Bishop John H. Vincent of Chattanooga delivered a spirited and interesting address on "Tom and His Teacher." It was a fund of plain advice to the teacher on the practical side of teaching.

President McKinley greeted the second session of the National Educational association in the exposition this morning, not in person, but by letter. Shortly after the meeting was called to order President Skinner read the message which the chief executive had written him.

DECLARES FOR GOLD.

Convention at Des Moines, Iowa, Characterized by Harmony.

Des Moines, Ia., July 8.—Three hundred delegates representing the gold Democrats of Iowa met in state convention Wednesday in this city, nominated their ticket and adopted a platform, the principal planks of which are devoted to gold, high liquor license, economy in state government and tariff for revenue only.

All of the nominations were made by acclamation. The platform was adopted as reported by the committee without dispute or division. The work of the convention was quickly accomplished. The sessions were enlivened by speeches by Fred Lehmann of Missouri and other noted gold Democratic speakers, and by the reading of messages from Grover Cleveland and Henry Watterson.

The convention was called to order in the morning at 10 o'clock by Chairman W. C. Mullin of the state central committee of Cedar Rapids. The sessions were held in the Young Men's Christian association auditorium, which seats 800, and the hall was filled.

Chairman Mullin announced the following nominations for officers of the convention: Temporary chairman, the Hon. Nathaniel French of Davenport; secretary, S. G. Sloane of Charles City; assistant secretaries, Alexander Charles, Cedar Rapids; Joseph Dyer, Des Moines; sergeant-at-arms, Phil S. Kell, Des Moines. By acclamation the convention approved the selections.

The Hon. Nathaniel French of Davenport was introduced and delivered his address as temporary chairman. His speech excited the convention to considerable enthusiasm.

The full ticket is as follows: For governor, John Cliggitt of Mason City; for lieutenant governor, S. H. Mallory of Chariton; for supreme judge, W. I. Babb of Mount Pleasant; for railroad commissioner, Peter A. Dey of Iowa City; for state superintendent of schools, J. B. Knoepfer of Lansing.

John Reynolds Dead.

Indianapolis, July 8.—John Reynolds, for thirty years publisher of the Odd Fellows' Talisman and one of the best known Odd Fellows in the United States, is dead at his home in this city. Mr. Reynolds was 70 years of age and had been for several years suffering from fatty degeneration of the heart.

Fear He May Not Rally.

Detroit, Mich., July 8.—The Hon. George V. N. Lotrop, ex-minister to Russia, who had partially recovered from an attack of heat prostration, began sinking Wednesday afternoon. It is feared he may not again rally.

Aid for Sufferers by Floods.

Paris, July 8.—The chamber of deputies voted the sum of 7,000,000 francs for the relief of the victims of the flood in France, Guadeloupe and Algeria.

MINERS OF GOLD MEET.

First International Convention in Denver Is Well Attended.

Denver, July 8.—In the number of delegates in attendance the first international gold mining convention will satisfy the expectations of its most enthusiastic supporters. There are at least 400 in the city, representing twenty states. Two hundred more are expected. There are representatives from Venezuela, Mexico and British Columbia.

At the miners' national bureau of information are displays of rich metallic ores from nearly every mining district on the continent. Probably the richest of these came from the Nashville exposition. They represent the mines of North Carolina and Georgia and are valued at \$1,000,000. The Broadway Theater, in which the congress convened, was handsomely decorated with national emblems and banners, none of which bore any expression on the great question of the ratio of the coinage between gold and silver.

Governor Adams was chosen temporary chairman of the convention, and upon assuming the chair made an address.

TIRED OF INACTION.

Russian Statesmen Advocate the Coercion of Turkey.

Constantinople, July 8.—Russia has sent a note to the powers suggesting that steps be taken to expedite the conclusion of peace between Greece and Turkey.

This action upon the part of Russia is regarded here as being of the greatest importance and as indicating that Russia desires to forestall a similar proposal upon the part of the other powers.

Both the palace and the Turkish ministers were immediately informed of Russia's action. The German ambassador here, Baron Saurma von Jeltsch, has received fresh and precise instructions to insist upon Turkey's acceptance of the strategic frontier proposed by the powers.

MIKADO MAY SEIZE HAWAII.

Strong Hints Conveyed in an Editorial in the Japanese Herald.

San Francisco, Cal., July 8.—The Japan Herald, commenting upon the Hawaiian situation editorially, says:

"The ominous calm which is now prevailing regarding the Hawaiian question is not difficult to interpret, and anyone who runs may read, notwithstanding the secrecy which attends the preparations of the Japanese government for a descent upon the Hawaiian islands. That is their aim, and unless their claims are fully met and promises of future good behavior are made regarding the Sandwich islands we will soon hear that the flag of Japan has replaced that of the present shaky republic."

THROWN IN A RIVER.

Smash-Up in Pennsylvania Results in Loss of Life.

Pittsburg, July 8.—A through freight en route to Cleveland on the Pittsburg and Lake Erie railway was derailed at Falston, Pa., about 2 o'clock Wednesday and 10 cars were precipitated over an embankment into the Beaver river. Forty tramps were on the train when the accident happened and several were caught in the wreck. One unknown dead man and three injured have been taken out so far and still others are missing. The names of the injured are: John Kelly, Chicago; Geo. Martin, Joliet, Ill.; Adam Kavichell, Kopsville, Pa. They were removed to the hospital at New Brighton. Kavichell will probably die. The accident was caused by a broken flange.

Japan Orders a Protest.

San Francisco, Cal., July 8.—The steamship Australia arrived from Honolulu Wednesday with advices up to June 30. They are to the effect that Resident Japanese Minister Shimamura received instructions from his government per steamship Peking to make a formal protest against the annexation of the Hawaiian islands to the United States until the complications existing between Japan and Hawaii have been amicably settled.

Samuel Gompers Tenders Aid.

Columbus, O., July 8.—Samuel Gompers, president of the American Federation of Labor, has telegraphed President Hatchford that the federation is in hearty sympathy with the movement. He places 1,000,000 men, members of his organization, at Hatchford's command. This may mean that coal used by factories from non-union miners will be boycotted, and a strike in factories ordered to enforce the boycott.

Engine and Train Ditched.

St. Cloud, Minn., July 8.—Last night's storm has paralyzed railroad traffic. It came so suddenly and raged so fiercely that many trains run into washouts without having any intimation of danger. There is a bad wreck on the Great Northern eight miles west of here, where an extra freight, with an engine and twenty cars, was ditched. Charles Washburn of this city was instantly killed and Engineer Pefer was injured.

Lillian Nordica Very Sick.

London, July 8.—Mme. Lillian Nordica, the prima donna, is ill at the Hotel Savoy. Mme. Nordica's condition has grown rapidly worse during the night and now occasions her friends the greatest anxiety. Her physicians are in attendance.

SWELL THE RANKS OF THE STRIKERS

WORK IN COAL PITS ABANDONED IN MANY STATES.

Usual Injunctions Granted—Reports From Pittsburg That the Men Are Sure of Success—Ohio Joins Indiana in the Move for Arbitration—Operators at Detroit Can Do Nothing

Columbus, Ohio, July 8.—Two events of the last twenty-four hours have put a new phase upon the coal strike situation. First was the action of Judge Taft of the United States circuit court at Cincinnati in extending the blanket of protection of the United States court over the Wheeling & Lake Erie railroad and the Jefferson county coal mines owned by the road. The second was the approach made here toward a conference between the coal operators and the Miners' union officials for the purpose of agreeing upon a scale and stopping the strike. Of perhaps equal importance is the action of the Central Labor council of Cincinnati, urging President Gompers of the American Federation of Labor to make an assessment of 10 cents a man weekly upon all the members of that organization for the benefit of the coal miners. The proposed assessment would bring in \$60,000 a week.

The Wheeling & Lake Erie road is not the only Ohio road in the hands of a receiver, and so under the protection of the United States courts. Three other coal roads are in the same predicament, which for the moment is a happy one.

From reports received at the national miners' headquarters and information gathered from telegraphic reports from the various districts the number of miners out aggregates nearly 100,000. In the Pittsburg district, 15,000 out of 21,000 miners are out; 22,000 out of 28,000 men in Ohio mines are idle; 20,000 out of 36,000 men in Illinois responded to the call, and 3,000 men in West Virginia have ceased work. It is estimated that in the states of Kansas, Iowa and Alabama there are 6,000 men out, and in Kentucky and eastern Tennessee 5,000 have abandoned the mines. Add to the total of the above at least 25,000 miners employed at small scattered mines throughout the several states whose cessation of work has been lost sight of, and the magnitude of the movement will be seen.

Ohio Joins Indiana.

Indianapolis, Ind., July 8.—Ohio has joined Indiana in the proposition that the labor commissions of the several states interested in the miners' strike form a joint board for the arbitration of the differences. Joseph Bishop, secretary of the Ohio board, met the Indiana commissioners Wednesday, and further steps toward inducing the commissions of the other states to join the movement were taken. Commissioner Bishop says the operators and miners will welcome the proposed arbitration board.

Agree Not to Ship Coal.

Bloomington, Ill., July 8.—The miners of Bloomington will not obey the order for a general strike. This was the decision of the mass-meeting of employees of the McLean County Coal company, the only local operators in Bloomington, held Wednesday night. An agreement had been entered into by the miners' leaders and the management of the coal company to the effect that if the miners remained at work the coal company would stop shipping coal to outside points.

Operators Can Do Nothing.

Detroit, Mich., July 8.—A meeting of the board of control of the Ohio Coal association was held at the Russell house Wednesday. The object of the meeting was to talk over the present miners' strike and see what could be done about it. "We discussed the strike situation," said an operator who was present, "but there is nothing that we can do now. We want to see the strike settled as quickly as possible, but that is all there is to it."

Miners' Officials Sanguine.

Pittsburg, Pa., July 8.—The miners' officials who are conducting the strike report big gains. If they can make good their claim to have the New York and Cleveland Gas Coal company's miners out by the end of the week it seems as if they will win. A complete suspension here insures victory and higher wages in the West. Tuesday night the strike looked like a fizzle. Now there is every indication that it will be a success.

Senator Harris in a Critical State.

Washington, July 8.—The condition of Senator Harris of Tennessee is precarious. During the heat of Wednesday afternoon there were fears that in his debilitated condition he would not rally again, but as the atmosphere became cooler again the senator regained partially what he had lost during the day. Owing to Mr. Harris' extreme weakness his proposed removal to a near-by mountain resort has been dismissed as out of the question.

Consul Baker Cannot Recover.

Springfield, Ill., July 8.—A telegram received here states that the condition of Edward L. Baker, United States consul to Buenos Ayres, Argentine republic, is hopeless. Mr. Baker was injured in a railroad collision near Buenos Ayres about two weeks ago.

THE OVERFLOW OF LOCAL NEWS.

IN HONOR OF THE SOLDIERS.

Adjt.-Gen. Boardman Appeals to Pride of National Guardsmen.

Adjt.-Gen. Boardman has adopted a novel plan to perpetuate the memory of Wisconsin soldiers of the civil war. The history of the First, Second, Third and Fourth Wisconsin regiments of infantry, compiled by Maj. F. L. Phillips, has been printed, and sent to the corresponding regiments of the National guard. In his introductory to the circular sent to the First regiment, Gen. Boardman says:

As the time is fast approaching when the survivors of the late war will have passed away and their regimental organizations, now maintained by the veteran associations, will disappear, the interest of patriotism, devotion to the country and good government seem to demand that their memory be perpetuated in every possible way by the coming generations. As one of the means of accomplishing this and as an aid also to the soldier of today, by creating in his breast the same spirit of patriotism that animated the volunteers of the war, it is suggested that your regiment take up the history of the First Wisconsin infantry and carry it forward. To bear the name of such a regiment is surely an honor. To be worthy of membership in its successor is certainly a distinction to be prized. To sustain and carry forward the traditions and reputation of those who fought for freedom and a united government is one of the duties of good citizenship.

PRICE OF BRICK IS VERY LOW.

Milwaukee Product Now Down to \$5 Per Thousand.

Competition has lowered the price of Milwaukee brick to a lower point than has been known for twenty-five years. The celebrated Cream City brick are now selling at \$5 a thousand, and some instances are known in which in the Milwaukee product has been delivered as low as \$4.75 a thousand and at that city. Chicago competition is chiefly responsible for the reduction. Manufacturers predict that the price will go 50 cents lower than at present. Contractors strongly hope that the present low price of brick will stimulate owners to greater activity in building.

PROPER FOOD.

And Not Drugs—The Common Sense Way

The failure of ninety-nine (men and women) to do what they want, make money, earn a home or fortune, make a name for themselves or attain whatever goal they aim at is due to improper living.

Unnatural food and drink gradually undermine the stomach and the nervous system and somewhere in the body the trouble shows, which drugs will not heal. It may be dyspepsia, constipation, heart trouble, kidney complaint or lung trouble, or it may be a row in bad blood, tumors, piles, weak eyes, loss of hearing and head troubles, all these and many more are caused by stomach and nervous disorder, and they cannot exist when stomach and nerves work properly.

Let us seek by natural living to be well and happy. Abuses of the body cannot be helped by medicines unless the abuses stop, and if that is done the person will get well quicker without drugs, in nine cases out of ten.

One of the greatest causes of diseases of the present day is found in some things little suspected. Coffee is one of these "polluted villains."

People wonder, day after day, "what in the world makes me feel so?" knowing that the ill feelings slowly add up, until a sure day of reckoning comes in the shape of a spell of sickness, expensive to pocket and always a considerable push down the hill in more ways than one. Yet they don't seem to find where the trouble lies until they quit coffee and tea and go into a plain diet.

Thousands are learning these facts, and it is to help those who find it almost impossible to get on without coffee, that careful experimenters worked nearly a twelvemonth to produce Postum Cereal Food Coffee, a beverage with the color, pungency and pleasant flavor of coffee, but composed of the pure grains of the field (wheat, etc.) It can be used freely by adults and children, as it is simply the juices of the cereals and is a perfect food-drink, while in taste and appearance it is coffee.

It is scientifically prepared by the Postum Cereal Co., Ltd., of Battle Creek, Mich., and is not as strong and acid as very strong and low grade coffee, but ranks in flavor and color with the fine mellow grades of the high priced Mocha and Java, and creases to the clear golden brown so greatly liked by connoisseurs. A few days use makes one very fond of the delicious, nourishing cup of Postum and the old ill feelings of body gradually disappear. Why? It is asked. Your chemist will tell you that it is now clearly shown by analysis that the same poisonous alkaloids exist in coffee as in morphine, whiskey, tobacco and strychnine, and the daily doses directly attack stomach, heart, liver and nerves. These facts make plain the reason for so many serious attacks on the body from a hitherto unsuspected quarter. It's the knife in the dark that kills, but science has thrown light on this subject, and one can now have the satisfaction at least of knowing what it is that hurts.

There is but one genuine original Postum Cereal Food Coffee, with a multitude of imitations offered as "just as good."

Between Seed Time and Harvest

Is a good opportunity to enquire about farming lands in South Dakota, only one day's ride from Chicago. Bountiful crops of wheat, corn, barley and flax reward the tiller of the soil. MADE A CENTURY YESTERDAY

Clayton Holmds and Roy Sanborn Ride 100 Miles in Sun.

The fact that it is pretty hot these days seems to make but little difference with local century riders. Clayton Holmds and Roy Sanborn, who have been visiting in Racine and Chicago returned home last evening on their bicycles from Chicago covering a distance yesterday of 102 miles. They left Chicago at 5 o'clock in the morning and reached Sharon via Elgin at 5:25 p. m. This trip puts two century runs to their credit within the past ten days.

William Hough, the barber, has a bicycle that was secured at the lowest price on record. Mr. Hough purchased five cents worth of sulphur at Holmds' drug store and got the lucky ticket.

Ed Ehle, formerly of this city, was awarded second place in the recent Waukegan road race. He covered the distance of 100 in six hours and fifty-five minutes.

Simple and Scientific.

Science is always simple. It's only quackery that juggles with jargon. Medical treatment of the past dealt with "simples," the pure vegetable remedies provided by Nature. Sagwa is compounded of simples. It is purely vegetable. It is scientific because it is based on the known curative properties of the herbs, roots, barks and gums which it contains. It is the most efficient blood purifier and blood builder known. Accept no substitute for

When You Get Ready.

When you have consulted everybody else and have been treated for every known and unknown disease; when you have filled your system with one-pattern, ready-made, same-for-all, sure-cure preparations; when you have tried charms, spells, fads and fancies; if experience has taught you that Nature alone possesses the power to heal; that certain remedies assist Nature, but none of them cure; that it is better to work with Nature than to fight the disease; that the surest way to cure disease is to remove the cause of that disease, then we will gladly assist you with Rational Remedies and methods which tend to build up and strengthen the entire system until Nature can assert herself and the Cause of disease is removed.

We treat the Patient, not the disease. This is one reason why we succeed where others have failed. We have been in Janesville more than ten months and are here to stay. Consultation, opinion and advice free.

THIS DAY IN HISTORY

1721—Elihu Yale, founder of Yale college, died; born in New Haven 1688.
1758—General Abernethy attacked Ticonderoga with 15,000 men and was repulsed with a loss of 2,000.
1790—Fitz Greene Halleck, poet, was born in Guilford, Conn.; died there 1867.
1807—Adam Smith, Scottish philosopher and teacher, author of "Wealth of Nations," died in Edinburgh; born 1723.
1822—Percy Bysshe Shelley was drowned in the bay of Spezzia; born 1792.
1875—General Frank P. Blair, noted Federal veteran, died in St. Louis; born 1831.
1892—Frightful destruction by fire at St. John's, N. F., two-thirds of the city, including the cathedral and many public buildings, being destroyed, at a loss of \$10,000,000; 20 persons killed and 8,000 made homeless.

A FEW WARM DAYS.

There is a little consolation there days in remembering that every summer brings us about so many tropical spells. Wisconsin is the "breathing spot" of the west but no part of the country is free from days when the heat is oppressive. There are long summer days of intense heat along our northern boundary and anastrophes occur everywhere except in a few spots on the Pacific coast which have, however, climatic troubles of their own. Running away from hot weather is but a partial success even with those who have the means and leisure to make a business of it. There is more of life-giving freshness in the air of the country, the seashore and elevated places, but hot days are not infrequent there. These mitigations are not for the multitude. The vast majority of people must take hot weather as it comes, and the true philosophy is to prepare to meet it in the best possible manner with the resources at command.

Of course dress, diet and bathing are all important points and many a discourse on the subject printed by health journals. Yet hardly a person can be found who could not make some further improvement for himself in this direction. Americans are learning to consume fruit more freely and it is noted that a large and cheap crop of berries decidedly reduces the demand for meats. In dress many conventional absurdities exist and no one can tell exactly how to get rid of them. In hot weather the dress of a man is more unsuitable than that of a woman. Then the masculine sufferer is frequently moved to beverages which though classed as light still have a considerable percentage of alcohol, something not calculated to lessen the tension of a heated term.

At the end of a summer day sensible people are more and more disposed to seek the open air for recreation. Cycling in moderation seems to entertain the mind, refresh the body and induce sleep, the best of all defenses against heat prostration.

There would be but little severe suffering from extreme heat if people knew precisely how to adjust their diet, dress and habits to meet it. As the requirements of the American climate become better understood discomfort in hot weather is greatly reduced.

The entire butter output of the Iowa agricultural college has been engaged by a London firm. Every pound of the Wisconsin surplus might be placed at a high figure in the same market if unscrupulous shippers could resist the temptation to smuggle in poor stock.

This year the farmers of Ohio, Indiana and Kentucky receive \$5,000,000 more for their wheat than in 1896, and not one has complained because the dollars are worth 100 cents anywhere in the world.

Fare for the round trip 25 cents; children under 15 years of age 10 cents. Dancing to the beat of music after 4 p. m. until midnight. By Order Committee.

THE MESSAGE IS WITHHELD

Will Not Be Sent In Until Next December.

Washington, July 8.—The special message on currency reform which was to have been sent to congress today was withheld at the last moment until December.

Conquered.

She (after a lovers' quarrel)—I suppose you want your presents back.
He—Ah, no; keep them. If any of the fellows ask about the presents, I'll explain that they were fully paid for in hugs and kisses.

She (on second thought)—My dear, suppose we forget we have quarreled, and begin over again.—Yellow Kid Magazine.

Learned Her Lesson Well.

Mrs. Manhattan—Now, Favette, it is only necessary for you to know one English word, no. If my husband says anything about kissing you, you are to say, firmly: "No!"

Favette—Oui, madame.
Mr. Manhattan (an hour later)—Do you mind if I kiss you, Favette?
Favette—No!—Town Topics.

Her Lovely Eyes.

She could not rightly see the stage. Save through her dainty glass. Without her "specs" the printed page For paper white would pass. But with her naked optics keen Of any summer day An ice cream sign was always seen At least a mile away.

—Chicago News.

WOULD REQUIRE LITTLE SPACE.

He—I usually carry a note book to jot down my ideas, but I forgot it today.

She—Would a calling card be too large?—N. Y. Times.

Summer Temperature.

That Mercury's the god of lies They teach us in our youth. But now in thermometric guise He comes and to our sad surprise He tells the solemn truth.

—Washington Star.

A Strong Personality.

Willy—Why, Cholly, you hear? I thought I passed you on the street just now.

Cholly—Haven't been out for an hour, dear boy.

Willy—Well, then it must have been some othah fellow, with a dawg and cane just like yours.—Harlem Life.

Why She Prayed.

"Why does sister Nellie pray when you come to see her?" asked Johnnie Charlie of the visitor.

"She doesn't pray, does she?"
"Yes, she does. Every time the servant comes upstairs and says you are here, Nellie says: 'O, Lord!'—Tammies Times.

Wonderful Ingenuity.

Crimsonbeak—That man Keys is a genius.

Yeast—What's he done now?

"Why, he's a devised a plan to keep his wife from playing the piano."

"Indeed!"

"Yes; he told her he had seen a mouse in it."—Yonkers Statesman.

Feminine Curiosity.

"That pretty young Mrs. Dawson is such a queer woman."

"In what way?"

"Every time I meet her in a bookstore she is buying a book which the critics have pronounced unfit for publication."—Detroit Free Press.

Her Strong Points.

"Mrs. Meeker," observed a friend of the family, "is a very superior woman. She can converse intelligently, I believe, on a thousand different topics."

"Yes," sighed Mr. Meeker. "And she does."—Chicago Tribune.

Anxious to Please.

Lady (sitting for portrait)—And make my mouth small, will you—ever so small? I know it is large, really, but make it quite tiny, will you?

Artist (politely)—Certainly, madam. If you prefer it, I will leave it out altogether.—Tit-Bits.

A Peculiar Woman.

"Mrs. Homer isn't at all interested in public affairs."

"No, she's the most insipid creature. She permits home affairs to absorb all her time and talk."—Philadelphia North American.

Grounds for Divorce.

Mr. Honeycomb—My wife has commenced to use Indian clubs.

Mr. Longwood—Well, if my wife used anything heavier than a rolling pin or broomstick I'd get a divorce blamed quick!—N. Y. Journal.

Excusable Impenitence.

She—I hope that poor Mr. Janney finally died a converted man.

He—I'm afraid not. He was a bigamist, and had promised both his wives to meet them above.—Demorest's Magazine.

Poor Youngster.

"That artist's baby died from trying to emulate his father."

"How so?"

"He tried to mix paints on his palate."—N. Y. Journal.

Heard in Chicago.

Mrs. Dearborn—Isn't that Mrs. Wabash's last husband, going in the house?

Mrs. Lake—Well, it's her present husband, but I don't think it's her last.

—Yonkers Statesman.

This is the regular meeting night for Janesville Commandery No. 2, Knights Templar.

COMMON SENSE CURE.

Pyramid Pile Cure Cures Piles Permanently by Curing the Cause.

Remarkable Remedy Which Is Bringing Comfort to Thousands of Sufferers.

Probably half the people who see this article suffer from piles. It is one of the commonest diseases and one of the most obstinate. People have it for years and just because it is not immediately fatal they neglect it. Carelessness causes no end of suffering. Carelessness causes no simple thing as piles has often caused death. Hemorrhages occur from no apparent cause and loss of blood causes death. Hemorrhages occur during surgical treatment, often causing death.

Piles are simple in the beginning and easily cured. They can be cured even in the most stages, without pain or loss of blood, quickly, surely and completely. There is only one remedy that will do it—Pyramid Pile Cure.

It allays the inflammation immediately, heals the irritated surface and with continued treatment reduces the swelling and puts the membranes into good, sound, healthy condition. The cure is thorough and permanent.

Here are some voluntary and unsolicited testimonials that we have lately received:

Mrs. M. C. Hinkley, 601 Mississippi St., Indianapolis, Ind., says: "Have been a sufferer from the pain and annoyance of Piles for fifteen years. The Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure."

Major Dean, of Columbus, Ohio, says: "I wish to add to the number of certificates as to the benefits derived from Pyramid Pile Cure. I suffered from Piles for forty years and from itching piles for twenty years and two boxes of the Pyramid Pile Cure has effectively cured me."

Most druggists sell Pyramid Pile Cure or will get it for you if you ask them to. It is one dollar per package and is put up only by the Pyramid Drug Co., Albion, Mich.

HESS DOESN'T WANT TO BE TRIED HERE

SAYS HE CANNOT GET JUSTICE
IN ROCK COUNTY.

Seeks a Change of Venue to Some Court Beyond the Confines of the Banner County of the State—Continuance Is Granted—Says His Girl Is Wild.

Sheriff Acheson gave two of his star boarders an airing this morning. William Saunders and John Hess, alias Thomas Jones, who have been watching the clam diggers from the upper windows of the jail since June 3, were brought before the municipal court and charged with burglary, larceny and receiving stolen goods, in connection with the C. M. & St. P. freight car robbery on June 2, at which an invoice of goods, principally hats and shoes, valued at \$153.85 disappeared. W. G. Wheeler, Esq., who was claimed by the prisoner as their attorney, was not in court, but this fact did not seem to discourage Hess or his partner. They promptly pleaded not guilty and asked a continuance until such time as they could consult with their attorney in regard to a change of venue which they desired to take out of the county as they claimed public sentiment was so perverted that they could not secure justice at any of points where it is dispersed at the County of Rock. At their request the case was adjourned to July 24 at 10 o'clock and a bail of \$800 fixed in the case of each prisoner. They went back home with Sheriff Acheson.

Hess is quite a character. He broke jail in 1888 and escaped apprehension until 1896, when he was tried by the circuit court on the regular charge and served a one year sentence in Waupun. He has been out only a short time. His record was incorporated in the information filed against him this morning.

Says His Girl Is Wild.

Louisa Thomas, aged 14 years, a daughter of Harvey Thomas, of Indian Ford, was arrested this morning on the complaint of her father, who alleges that his daughter is "getting beyond his control." Sheriff Acheson made the arrest at the Edgerton home of Mr. and Mrs. Hallett. The young lady was brought to this city and is now in the sheriff's charge. Her father and mother did not lead a happy married life and after a few years of wedded bliss they separated.

THE MYSTERY OF THE PARK.

Evidences of Self Denial and Suffering Appeal To Discoverer.

What cruel hand struck down a happy merry maker in the Court House park last night?

Who heard the groan of anguish as an unknown assassin wielded his unfeeling bludgeon?

No one knows.

No one heard the blow that crushed a skull, struck.

No one saw a criminal skulk along beneath the friendly shade of the big trees.

It is a case for Sherlock Holmes.

Park Superintendent Thomas Croft went to work early this morning, and about the first thing he saw was the evidences of the midnight tragedy.

Under the broad spreading limbs of a big elm tree, lay the tokens of man's perfidy and cowardice. Just as the brawlers had dropped them—probably when they were discovered by some belated passerby—lay the evidences of the mystery of darkness.

Mr. Croft hastened to gather the relics together and report the find to the proper authorities. Careful inquiries were made at the residences of the people living near the park, but none had heard sounds that betokened a struggle. As investigations proceeded, the more mysterious the affair became.

"Someone has been out wide here battleaxe and done dancin' work," was the comment of one of the members of the White Light club who had for some unaccountable reason strayed so far away from the haunt of the modest clam. "No expert old dad job you can tell by the looks of de dec'ray."

And the Whitelighter spake the truth.

The fifteen bottles of wine that Park Superintendent Croft found under the big tree—WERE FULL!

Nothing but actual violence would have caused their abandonment, it is argued, when the thermometer stood 100 above.

GIRL HAD A BUG IN HER EAR.

Parents' Efforts to Remove It Only Pushed It Further In.

With a small black bug snugly imbedded in one of her ears, little Emma Campbell, who resides with her parents near Afton, was brought to this city in a lumber wagon in order that the insect might be removed. The little girl got the bug in her ear while playing in the yard, and all efforts on the part of her parents to remove it only served to push it nearer the drum of the ear.

ANOTHER SCHOOL FOR BELOIT

Buildings Are Crowded and More Room Must Be Had.

The annual school district meetings were held at Beloit yesterday, and on the west side measures were taken toward building another school. All the city schools are crowded. Dr. E. C. Hein was elected a member of the City School board in the west side district, and Prof. T. L. Wright was re-elected a member of the board in the east side district.

HOT, HOT, HOT, HOT,
HOT, HOT, HOT, HOT

THIS WAS THE WARMEST DAY
OF THE SEASON SO FAR.

Several Reliable Thermometers Registered One Hundred Degrees Above Zero in the Shade, While One Crawled Up to 102—Business Was at a Standstill.

There have been hot days before. But, they "were not so warm." When Compared with today. This is history. Old Sol seemed to arrive at the conclusion this morning, that his reputation was suffering because bacon would keep twelve hours outside of refrigerators. Or perhaps the men with crash suits, soda water, and shirt waists to sell had a pull with the weather bureau. At any rate, Mr. Sol unbelted today, and sent the rays down to the earth through the lens of his bicycle lantern. Each ray burned a blister, and each blister kept getting hotter. And so it went all the forenoon. People reckoned that this was about the hottest day of the season, and they reckoned well. It was.

At noon the high point was reached and the thermometer at the Power City bank corner registered 100 degrees above. Under S. C. Burnham & Co's, avowing the thermometer registered 98 above while at Smith's pharmacy a perfectly accurate instrument indicated 100 degrees above zero. At one Third ward residence a thermometer registered 102 in the shade.

Down town restaurants did a good business this noon, as many people lunched down town rather than to tempt dissolution by walking far in the sun. The street cars did a big business and the soda fountain clerks were overworked. Saloon men smole the smile of contentment as the "beer money" rolled in but outside of the places where cooling beverages sold business was almost at a standstill.

HEAT KILLS A PORTER HORSE.

Equine Dies From the Sultry Atmosphere—Other News.

Porter, July 8.—Mr. Lind lost a valuable horse last Friday, owing to the intense heat. The Eagle and Clippers nines played ball on Sunday. The game was won by the former by a score of 12 to 15. Mr. J. Crowley acted as umpire. Last Friday, was reported as the hottest day on record so far this year. Thermometers hovered at 99 degrees all the forenoon. Porter's population is gradually increasing—this week, it is a boy at Neil McGinley's and a girl at Thomas Burns. Miss Maud Clifton spent a couple of days at Edgerton the first of the week. Ev ryone from here who attended the T. A. & S. society picnic in Edgerton on Monday report a fine time. The annual school meetings passed off on Tuesday evening in the Eagle district. Mr. J. H. Nichols was re-elected treasurer. It was voted to put up a steel flag pole. E. Blush, of Whitewater, was a visitor the first of the week.

ASSIGNMENT IS MADE
BY FRANK SADLER

HARNESS SHOP SHUT UP YESTERDAY AFTERNOON.

He Owes About Twelve Hundred Dollars, Leather and Trunk Concerns Being the Largest Creditors—Dull Trade and Slow Collections the Cause—Now Taking Inventory.

Frank H. Sadler, who conducts the harness establishment at No. 15 South Main street made a voluntary assignment at 4 o'clock yesterday afternoon in favor of his father William Sadler. The liabilities are about \$1200 and a statement of the assets cannot be made.

The principal creditors are the C. S. Weiss Leather Company of Sheboygan Falls, Wis.; the Palica Trunk Company of Racine; the M. M. Seer Trunk Company of Racine, and the P. Becker Trunk Company of Chicago.

The fact that the store was closed caused surprise for it was thought by Mr. Sadler's friends that he was enjoying a good business in spite of the hard times. Mr. Sadler attributes his trouble so slow collections and dull business. During the past year trade in the harness line has not been brisk. Farmers in this section of the country have been cutting down expenses during the past two years and have invested in but few new harnesses.

Attorney E. D. McGowan has been engaged by the assignee and an inventory of the stock is now being taken. It is not known at present whether or not business will be resumed.

CUPID'S PLANS CONSUMED.

Gage-Heimstreet.

Charles H. Gage and Miss Alice Heimstreet were married at the home of the bride's parents on North Main street at 2:30 o'clock this afternoon. The wedding was unostentatious and only the immediate relatives and a few intimate friends of the bride and groom were present. The ceremony was performed by Rev. A. H. Barrington, rector of Christ Episcopal church and the happy couple took their place before him unattended. Following the ceremony congratulations were extended and a wedding feast was served.

Mr. and Mrs. Gage left on the afternoon train for Milwaukee. After a brief wedding trip, they will return to Janesville and make their home at Number 1 Milton avenue.

The bride is the only daughter of Mr. and Mrs. E. B. Heimstreet. She has resided in Janesville all her life. All the qualities that go to make a charming personality are embodied in her, and her worth of character and sunny disposition have made her a universal favorite.

The groom is one of Janesville's best known young men. He is the son of James P. Gage of Milton Junction, and has made this city his home for several years. He enjoys the most implicit confidence of all, and as a business man he stands very high in the community. He now holds the responsible position of Deputy Register of Deeds. His mansion is of the sterling kind that commands the respect and admiration of all.

Thus are two of Janesville's most favored young people united by the link that naught but death can part. That their married life may be ripe with joy and bare of afflictions will be the wish of all who know them.

THE BROKEN TOY.

A broken toy—what memories cling
Around this half forgotten thing!
What baby laughter seems to rise,
Like old, delightful melodies!
What shouts of wordless, tuneful joy
At sight of this poor broken toy!

Oh, tiny feet that would not rest!
Oh, dear head pillowed on our breast,
What would we give to hold again
The form we lost amid tears and pain!
Ah, child, the empty cot is ours,
But thine the sunshine and the flowers!

What could we give thee shouldst thou
Come
To smile again upon thy home?
Such little pleasures as we know
In this our twilight life below,
Some fragments of earth's paltry joys,
A handful of its broken toys!

How calm thy lot, forever blest!
How exquisite thy happy rest!
How changeless, joyful and serene,
Compared with what thy lot had been
With us, whose fleeting, clouded joys
Are at their best but broken toys!

THE EXTORTED KISS.

To the north of Europe, at the entrance of the gulf of the Baltic sea, stands a city resembling in its site "the queen of the Adriatic." This second Venice is known by the name of Stockholm, where in former days reigned two of the wisest and best of monarchs, by name Gustavus the Great. The first, because of his patriotism, skill and genius, had rescued his country from the subjugation of the Dane, and the second, by his indomitable energy and military knowledge, had exalted her to the first rank among the nations of the world. The latter dying in 1643, the crown devolved upon his daughter, Christine, then scarcely 15 years of age.

It was a morning of July, 1645, in Stockholm. The air was resounding with merry ringing of bells, the roaring of artillery and the shouts of the populace, for it was the natal day of the youthful queen. Nobles, squires and the learned of the land had congregated to pay their homage to their youthful sovereign, and the peasant from the most distant regions of Sweden had contrived to make his way to Stockholm to gain a glance of the fair creature whose fame sounded throughout the world, and whose learning had been extolled by Descartes and Samanie.

The court of the palace was thronged with anxious spectators, and the troops were ranged in due order to greet the appearance of the queen, when suddenly the windows were thrown open and the flower of Sweden—ladies, nobles and officers—appeared in the most gorgeous uniforms. All eyes were directed to one point, and a universal cry arose of "She comes!" But Christine was not there. It was the young and handsome Count Lagardie, the favorite of the queen, who appeared and, having waited till the enthusiasm of the populace had subsided, read as follows:

"A bold and insolent peasant having dared to insult her majesty, it is deemed expedient that he should suffer punishment, but in consideration of the day, and that no cloud should mar the festivities, the queen ordains him to receive 15 blows in the presence of the assembled multitude as a warning to future offenders."

The chief of the police, with his assistants, having conducted the prisoner into the center of the court, executed the sentence. The poor fellow with difficulty refrained from giving vent to his sufferings, and the people looked on with amazement and pity at so sudden and ignominious a punishment. It appeared that this man was a poor young miner who had come from Norberg to Stockholm to share in the sports and pleasures of the birthday of his queen. His crime arose from his ignorance of the laws of etiquette. It had been told him in the province of Westmanland that on this day it was the custom of the sovereign to be not only accessible to her court and the nobles of the land, but also to the meanest of her subjects; that all had the privilege to approach and kiss the royal hand.

Kiss the hand of a queen, the hand of Christine—she that was the idol of his life, whose portrait was the only ornament that graced his smoky cabin—it was a happiness which he had never hoped to enjoy, and the young miner resolved at all hazards, all trouble and fatigue to journey to Stockholm and share in the royal condescension. From Norberg to Stockholm was a long and fatiguing journey, and his means were not the most ample. But this was nothing—the image of Christine was to him as the loadstar to the mariner, and he reached Stockholm the evening before the royal birthday.

Having arrived, he directed his steps to the church of St. Nicholas to ask of heaven many years of glory and happiness to the youthful sovereign, and then with a portion of his little means purchased a smart costume, in which having attired himself he rambled about the city, feasting his eyes on the many wonders which for the first time he had beheld, and now to him appeared almost as creations of fairyland or romance.

The morning dawned bright and beautiful, and the forts of Fredericksburg and Waxholm announced that Christine had reached her sixteenth year. Awakened by the roar of artillery, Carl started from the ground where, like many others, he had passed the night in slumber, and, although yet early, found the streets thronged with thousands of inhabitants, evincing their enthusiasm in every possible manner. As the day wore on Carl mingled with a train who were proceeding to the palace, and from his smart attire and handsome figure contrived, although unintentionally, to pass the guard and enter the vestibule. The poor fellow, bewildered and delighted with the magnificence which on every hand surrounded him, kept wandering about, regardless as he was ignorant of all etiquette, jostling and pushing aside nobles, ladies, officers and other functionaries—in short, all who impeded him.

At length, having entered the great

gallery, his simple costume attracted the gaze and called up the astonishment of the assembled multitude. Murmurs upon murmurs rose all around, but Carl kept advancing. He was ignorant of the storm then gathering and had proceeded as far as the door of the hall of audience when the officer in waiting demanded his name and business. It was about to reply when, catching a glance of Christine, his enthusiasm knew no bounds, and pushing the officer aside he rushed into the royal presence, seized the hand which at that moment was extended to the president of the senate and pressed it to his lips.

At sight of Carl and his boldness Christine uttered a scream and withdrew her hand, while a hundred eyes were in a moment raised to chastise the peasant slave who had impaled the officer and aspired to an honor reserved for the titled and the rich. This such was the crime for which he was thus disgraced—a crime arising from his ignorance and which merited not so ignominious a punishment.

When the last blow had fallen, he bounded from the hands of the guards, and casting his eyes toward the palace exclaimed, "I swear before God, Christine, that a day will come when I shall kiss thy royal hand!" Then, regarding his punisher with a look of ferocity, he dashed wildly through the crowd.

The next day the miner had quitted Stockholm, but he was never again heard of at Norberg.

Five years after this two prisoners, the one a young man of some six and twenty years, accused of robbery, the other the head of a band of highwaymen, together confined in a dungeon of the fort of Fredericksburg, were thus conversing:

"Ah," said the young man, "what I regret most is that I shall never again behold her I love."

"Child," replied the robber, "in a few years thou wilt be liberated. Do not despair, for if she thou lovest is really faithful you may yet be happy. Listen. Our young and beautiful queen once ordered 15 blows to be administered to the shoulders of a poor fellow who, struck with an unconquerable passion for her, dared to respectfully press his coarse lips to her dainty fingers, and for which he was disgraced as if he had committed a crime of the most daring character. But he swore before God that a day would arrive when the hand which had been refused him should be pressed to his lips and the mouth which commanded his punishment would sue to him for mercy."

"That day so much desired seemed as if it would never arrive, but it came at last. It was during the chase when the queen in her ardor became separated from her companions, and she found herself alone in the middle of a deep forest. Suddenly she was surrounded by a band of robbers, who seized her, ignorant of her quality. 'Respect me!' she cried. 'I am your queen!' The words fell like lightning on my heart. The hour of retribution had arrived. 'Look on me,' I said. 'Do you not remember me? I am Carl, the poor miner who once presumed to kiss thy pretty hand, and for which you ordered him to be scourged in the face of all Stockholm on thy natal day. But I swore before God that a day would arrive when I should press it to my lips. It has arrived, and my oath shall now be accomplished.' I advanced toward her, but my heart failed me, and I wept like a child."

"Prostrate thyself," said she, recovering her wonted dignity and courage. "Those whom I permit to salute my hand must approach on bended knee."

"She extended to me her hand, and kneeling I pressed it to my lips, proud and happy that I had fulfilled my oath. I departed, first having conducted her to the right path. The next day I and my companions were surprised and taken. But, never mind—I still hold it as a truth, for experience has proved it, that in love we should never despair. There is always a favorable moment, and all that is necessary is to be watchful, and when it does arrive to permit it not to escape us. Do not despair. I hope yet to see many happy hours."

The jailer opened the door of the prison and pronounced the name of Carl. "Along, my lad!" cried he to the prisoner.

Carl was about to reply, but was prevented by the keeper continuing:

"Hush! It is useless. The gallows is ready, and the executioner awaits you."

The City of the Future.

If the predictions of scientists are to be believed this world may be a different looking place from the present for those who live a quarter of a century hence. The houses, stores, factories—indeed, buildings of all sorts—will be warmed and lighted by electricity, the racket and din of heavy cartage will be banished from our city streets, as everything will be conveyed on practically silent tramways. There will be smooth pavements, horseless carriages, with pneumatic tires; no trolley poles, no horses and no wires. With heat and light supplied, as water is now furnished, there will be no carting in of coal or carting out of ashes. Transmitted power will be the magician to work this grand transformation. Gas may be used for cooking, if electricity is not, and, with no smoke, no dust from coal or ashes and no grinding up of pavements from wheels and horses' feet, the city will be as clean as the country, and, instead of a cloud laden atmosphere, the air will be wholesome and refreshing as that which sweeps over the untainted hills. This sounds visionary, but the beginning of such conditions has been made, and it is said that even in ten years much of this may be accomplished. —New York Ledger.

In Illustrious Company.

The door of the corner saloon suddenly opened and a greasy vagabond shot out through it with great violence, apparently moved by some strong impelling force behind him.

Rising slowly from the gutter into which he had rolled he picked up his hat, adjusted it on his head, and turned stiffly to the solitary bystander who had witnessed the scene.

"I presume I remind you," he said, "of some unfortunate European ruler. I am the victim of a bum-thrower."

And he moved with heavy dignity down the street. —Chicago Tribune.

A SIMPLE TIRE REPAIR.

Punctures in the well known Morgan & Wright tire are mended about as easily as a man would close a hole in his finger with a bit of court plaster. Inside of the inner tube of the tire lies a long strip of patching rubber, like this:

By injecting M. & W. quick-repair cement through the puncture into this inner tube, and then pressing down on the tire with the thumb, like this,

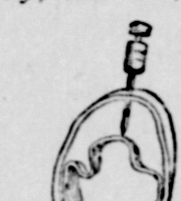

the repair strip inside is picked up by the cement, thus closing the puncture, like this:

Very simple, but—now every rider should remember these two "buts," or he will fail:

Before injecting cement, pump up the tire. If you don't, the inner tube will be flabby, like this,

and the cement will not get inside of it, where the repair strip lies.

When you have a puncture, get right off. Riding a tire flat, when it has a tack or nail in it, may damage it considerably.

Just The Days To Show A Gas Stove's Worth...

To be sure it's hot work preparing any meal these days, but think how much less time is necessary for the Gas Range than the regular Cooking stove. Think of how quickly all heat is disposed of after baking is over. Think of the extra leisure one has after work is over. The great convenience in

Gas Stoves:

for hot weather use, or in fact for all the year 'round use, is not to be comprehended until you have experienced it.

A Little More Cost Brings Big Profits.

The addressing, folding, inclosing, sealing and stamping of five thousand circulars, with postage, will cost at least \$65, whether the circular is good or bad. Notwithstanding this fixed charge, some strive to save a dollar or two on the cost of printing, although the goods advertised are to be judged by the character of the printing, just as a house is judged by the character of its salesmen. Good printing costs but little more, and that "little more" brings greater returns than any other part of the cost. Order your printing where good work is assured.

Gazette Job Rooms.

Good Printing...

Is like good painting—it demands and obtains a second glance. The second glance leads to thought about and knowledge of the thing portrayed, and then on to the artist or advertiser.

The kind of printing as well as the kind of painting that it pays to do and to have done is that which obtains this "second glance." Plenty of the other kind!

We are PRINTERS. Our work obtains glances of admiration, and thus leads on to the end desired. We don't do the "other kind." Put our job room to the test.

IN INSOLVENCY.

CIRCUIT COURT—ROCK COUNTY.—In the matter of the Insolvency of E. R. Inman, by whom a petition for a discharge from his debts, under chapter 175 of the Revised Statutes of Wisconsin, was filed on the 22nd day of June, 1897.

To all whom it may concern:
Pursuant to an order made in the Circuit Court for Rock County, Wisconsin, dated June 28th, 1897, all creditors of E. R. Inman, of Janesville, Wisconsin, are required to show cause, if any they have, before said Court at the Court House in the city of Janesville, Rock County, Wisconsin, on the 20th day of September, 1897, at 9 o'clock in the forenoon of that day, or as soon thereafter as the matter of said petition can be heard, why said E. R. Inman should not be adjudged to be an insolvent debtor within the purview of Chapter 175 of the Revised Statutes of Wisconsin, and the several acts amendatory thereof, and why an assignment of the estate of E. R. Inman, such insolvent debtor, should not be made, and why he should not be discharged from his debts and why such order and further order should not be made as shall be just and equitable in the premises.
